Bitter Weather Leaves Misery, Death to Many

By THE ASSOCIATED PRESS

Winter's worst storms eased off today but intense cold added to the suffering and shivering misery of millions of Americans.

Thousands were homeless in flooded areas in Ohio, Kentucky, Pennsylvania and Indiana.

And 40 deaths were reported in the territory hit by heavy snow, ice storms, slashing rains or tornado winds—a territory that extended from the Southwest to the Atlantic Seaboard.

Arctic air spread south and east. It increased the misery of residents of the storm zones, but it checked the run-off of waters into flooded streams.

Winter's most destructive and bitter elements—floods, snow storms and cold—dent misery and suffering to millions across the eastern half of the nation today.

Thousands were homeless in floods in Ohio, Kentucky, Pennsylvania and Indiana. Scores of rivers and streams, fed by heavy rains and snow, overflowed.

Flash floods harassed a dozen upstate New York communities, forcing many families to evacuate their homes. Damage was estimated in the millions of dollars.

Deaths related to the violent weather and floods mounted. The latest count was 45.

States of emergency were declared in many Ohio cities and in at least two New York communities.

At Mount Vernon, in central Ohio, about a third of the city's 15,000 residents were taken from their homes after the Kokosing River had flooded, smashing through dikes in the downtown district.

Most of the 600 families in New Miami, in southwestern Ohio, were evacuated by overflows from the Ohio River.

Disaster plans were set up, and Continued on Page Five

Fate of Widow Remains Mystery

LAS VEGAS, Nev. (AP)—Police started east today with Larry Lord, Motherwell, still hoping to find some trace of a missing widow.

Motherwell, 42, is charged at Frederick, Md., with murdering his daughter, 14-month-old Heather.

The fate of the widow, Pearl Putney, 72, remained a mystery. Mrs. Putney has been missing since last summer when she drove to Las Vegas with Motherwell on what she called a last fling.

Motherwell says he last saw her in Las Vegas in August.

Two Frederick officers planned to stop at Flagstaff and Tucson, Ariz., and in Texas on their way with Motherwell, hoping to pick up clues to Mrs. Putney's whereabouts.

The prisoner has said he visited those places since seeing her.

McClellan to Fight Attempt to Control

WASHINGTON (AP)—Chairman John L. McClellan (D-Ark.) said today he will oppose vigorously any democratic effort to seize voting control on the Senate Rackets Committee he heads.

But he said he knows nothing of any such move beyond "mere rumors," and added he hopes these are unfounded.

McClellan called a closed door meeting of the bipartisan group, primarily to make final plans to ask for a one-year extension and to plan possible hearings next week.

He said he assumed another subject to come up would be the talk of a move to install a Democratic majority in the committee. It now is composed of four Democrats and four Republicans, with one of the Republican seats vacant.

Sen. Karl E. Mundt (R-SD), the committee's senior Republican, said he has heard more than rumors that Democrats plan to take control, but he declined to name any names. No one has announced publicly any intention to try to change the committee's numerical makeup.

Committee Counsel Robert F. Kennedy said the committee would consider final steps in its proposed request to the Senate for permission to carry on for another year its hunt for evidence of misdeeds in the labor-management field.

The committee is expected to ask for \$750,000—the same as its 1958 budget—to carry on the work until Jan. 31, 1960.

Kennedy announced the committee is requesting Public Health Service doctors to examine five subpoenaed witnesses who have sent word they are ill to testify.

Kennedy said that tops among them is Robert (Barney) Baker, named in a committee report as a former New York hoodlum who rose to influence in the Teamsters Union in St. Louis.

Kennedy listed the others as James Blakely, Chicago, international vice president of the Hotel and Restaurant Workers Union; Charles Johnson, New York City, international vice president of the Carpenters Union; and Richard Kayser and Peter Saffo, St. Louis Teamsters Union officials.

Kennedy said he has not yet heard whether Roland McInasters, a Detroit Teamsters official, would respond to a subpoena. All six had been summoned to a hearing Tuesday.

Six Killed While Refueling Plane in Louisiana

ALEXANDRIA, La. (AP)—A four-engine air force refueling plane crashed and burned early today shortly after takeoff on a routine training mission. England Air Force Base said all six crew members died.

The plane, a converted B52 bomber, took off with six others on an early morning refueling mission with fighter planes. The England tower said the pilot radioed that the plane was in trouble and he was returning to the field.

The plane exploded as it landed, careened across the field before the fuselage came to rest on a railroad track.

England authorities said all crew members were badly burned and identification would be difficult.

The plane cut a 200-yard swath before it finally came to rest on the tracks, about a half-mile from a cluster of residences.

England authorities said the plane carried a full load of jet fuel, but declined to say how many gallons were aboard.

Young-Newbern Vows Solemnized

The marriage of Miss Elizabeth Edna Young to Dr. David Henton Newbern was solemnized at 4:00 p.m. in the afternoon, Saturday, Jan. 3, in the chapel of the Lakeside Methodist Church at Pine Bluff before members of the immediate families and relatives with Rev. Fred R. Harrison, pastor of the First Methodist Church of Hot Springs officiating, assisted by the Rev. John M. McCormack, pastor of Lakeside Methodist Church.

Preceding the ceremony, pre-nuptial music was played by Mrs. Thomas L. McLean, organist of Malvern. Mrs. Paul Blount Young, aunt of the bride, sang "Pledge of Ruth" and "O Perfect Love." Candles were lighted by Toni Ross Young Jr. of Malvern and vows were pledged before a bridal arch, lighted with seven candles, entwined with huckleberry. The chancel was banked with plum and arrangements of large white chrysanthemums, with two

matching seven tiered candelabra on each side. Satin bows and ally of the valley bouquets marked each pew.

Serving the groom as best man was his brother, George Pierce Newbern III, of Hot Springs and groomsmen were Benjamin Love Newbern, the groom's younger brother and Charles Howard Johnston of Little Rock and Hugh Clark Mixon Jr. of Marianna, Ark. cousins of the groom.

The bride was given in marriage by her father, Gordon Elmo Young the bride's gown was of delusé silk satin, fashioned with slightly fitted bodice with wide neckline, outlined with deep banding of imported nelson lace and tapering down the center to the bodice to the pointed waistline. The long satin sleeves were pointed over the hand and the very full, satin, billowing skirt fell into a beautiful, cathedral train.

Her small headpiece was a Juliet cap of seed pearls with finger tip veil of illusion. She carried a bouquet of lily of the valley, centered with small talisman rosebuds. Udd with ivory satin ribbons. The bride's attendants were her three sisters: Mrs. Cecil Duke Allison Jr., maid of honor; Miss Catherine Blount Young, maid of honor; and Miss Virginia Anne Young, Junior bridesmaid. All three attendants wore identical dresses of bisque colored pure silk organza, short-waist dresses, fashioned with underlay of bisque lace. The mother of the bride wore a pure silk peau de soie sheath dress of ice-blue, styled with wide neckline, embroidered with iridescent sequins and tiny pearls. The groom's mother wore a sheath dress of mauve pink tulle overlaid with rows of matching lace from shoulder to hem-line.

Immediately following the ceremony, a reception was given for the couple and members of the bridal party by the parents of the bride, Mr. and Mrs. Gordon Elmo Young, in their home at 1616 Laurel St., Pine Bluff. They were assisted in receiving at the door

by the parents of the groom, Mr. and Mrs. George Pierce Newbern III, of Hope.

Mrs. Richard Pence, aunt of the bride of Conway, served the bridal cake and Mrs. Bessie Wilson Gage of Pine Bluff presided over the tea service. The bridal table was covered with white or gandy cloth, with wide ruffled flounce spread over ivory satin and was centered with a silver epergne arrangement of white snapdragons, lily of the valley and daisy chrysanthemums, on the buffet was mirrored a five-branched lighted candelabra, with lily of the valley and ivory satin bows attached to the silver candlesticks.

The bride couple left immediately after the reception for New Orleans and flew to the Yucatan Peninsula and other points of interest in Mexico. They live at home at 232 Lockland Ave., Winston Salem, N. C. where Dr. Newbern will resume his residency in radiology at the Bowman Gray School of Medicine, until July, when he completes his residency as Captain in the United States Air Force Medical Corps. For travel the bride chose a two piece suit in French vanilla color with Dindem mink collar, an original by Brevity, her accessories were in the new Bone-Calf, matching turtleneck of bone shades and brown. Her shoulder corsage was of tallman buds, lifted from the center of her bridal bouquet.

Private School Groups See No Public Funds

By JOHN R. STARR

LITTLE ROCK, Ark. (AP)—Little Rock high school students and their parents apparently are resigned to finishing this year without public schools, despite recent court moves to reopen the facilities immediately.

"It's late to do any good this year," said one mother. "My Billy is settled at a private school, and he'll probably stay there because we couldn't be sure the public schools would stay open if they reopened."

The speaker was representative of thousands of parents who first looked on school closing as a temporary measure but who now are prepared to extend emergency educational provisions indefinitely, certainly through this school year.

Caught in a massive battle between federal and state governments on the "school" integration question, 2,000 Little Rock students work in schools in other communities. Some 1,100 more are nearing mid-term at newly organized private schools here.

About 700 students, including 450 Negroes, remain out of classes altogether.

Community sentiment is divided on the school issue. Many prefer that the schools remain closed if integration is the only alternative. Students apparently continue to take the situation in good spirits.

The novelty of attending new schools, even at great inconvenience, has not worn off. Many said they prefer the new schools to the old, mainly on grounds that they are smaller, more friendly.

Bitter Weather

National Guard units joined civilian workers in some of the flood-stricken areas.

The blizzard snow storm, which swept out of the Great Plains and dumped up to a foot of snow across the midlands, curtailed normal activities in hundreds of communities.

The biting, stiff winds which swirled the snow into big drifts paralyzed travel in many areas.

Travel was snarled in the big cities where the job of snow removal was the No. 1 problem. Crews worked around the clock to clear the main arteries. Driving winds added further woes to their work in getting rid of the tons of snow.

Zero weather followed the snow into the storm-battered Midwest. It was from zero to 10 below in the upper Mississippi Valley and northern plains.

Strong west to northwesterly winds fanned the cold air into the Ohio Valley and to the Gulf, ending a brief period of spring-like temperatures.

Wind gusts up to 100 m.p.h. lashed sections of western North Carolina during the night as the cold front moved across the state. Torrential rains pounded Asheville.

Tornado winds dealt death and destruction in Kentucky. Twisters skipped across farming communities in Grayson County, 75 miles southwest of Louisville, killing two persons. A woman was killed and three other persons were injured in Lexington when a television tower toppled and crashed into the studio. Strong winds buffeted areas in central and western Kentucky.

NORTH LITTLE ROCK, Ark. (AP)—A North Little Rock man dove into the freezing waters of a lake and rescued a 64-year-old woman trapped in her submerged car today.

The car, driven by Mrs. F. A. Tyler of North Little Rock, had skidded off an ice-coated road and plunged into 6-foot water in one of the Lakeview section lakes.

Mrs. Tyler was treated for exposure but was in satisfactory condition after her rescue by John Allison, 33.

"I was in my house when I heard a woman scream," said Mrs. R. B. Halbert, who lives on Waterside Drive where the accident occurred.

Mrs. Halbert ran out of her home just in time to see the car going into the water.

"Another car stopped and a man got out," she said. "He looked at the sinking car and yelled at him to phone an ambulance and ask for a boat."

Mrs. Halbert made the call and dashed outside again.

The man had stripped to his trousers and undershirt and she saw him dive into the water and swim toward the car.

From a physician's office where she received first aid Mrs. Tyler took up the story of her rescue.

"As the car entered the water I just sat frozen," she told news men. "I guess I didn't have the sense to try to get out. The car started to fill up with water and I started to sink."

She burst into tears and continued, "I knew I was going to die. Suddenly someone broke open the window of the car. After that I don't remember anything."

After pulling Mrs. Tyler from the water, Allison administered artificial respiration until an ambulance arrived.

He left the scene and went home. When his amazed wife asked him what had happened to his clothes, he said he had left them in the car.

Million Dollar Law Suits Are Filed

ST. LOUIS, AP—A two million dollar suit was filed yesterday by American Business, Inc., which operates in northern Arkansas, against a union which called a strike against it.

U. S. District Court was asked to order the payment by the Amalgamated Assn. of Street Electric Railway and Motor Coach Employees of America.

The petition said the two million dollars was the amount of money the company lost because of the strike. It also asked for \$10,000 additional damages for each day the strike continues.

The strike against American, which operates in 28 states, began last July 1.

While bear grease was probably the single first manufactured product it was closely followed by bullets cast from land in the Ozarks.

Student at U of A Has Narrow Escape

FAYETTEVILLE, Ark. (AP)—A Conway student at the University of Arkansas had a narrow escape yesterday when fire broke out in a four-room house he shared with two other students.

Jim Johnson, 23, of Conway, awoke to find the structure ablaze early yesterday. He seized a coat and rushed outside.

Firemen said he was lucky to escape with his life.

No one was injured in the fire of unknown origin. The house was destroyed.

Johnson was given clothing and shelter at a nearby fraternity house.

Hospital Conversion Plans Are Studied

WASHINGTON (AP)—Don Russell, Arkansas director of vocational rehabilitation, scheduled further talks with federal officials today on the possibilities of converting Army - Navy Hospital at Hot Springs, Ark., into a vocational rehabilitation center.

Russell planned to confer with officials of the Health, Education and Welfare Department. He met yesterday with Sens. John L. McClellan (D-Ark.) and J. W. Fulbright (D-Ark.) and Rep. W. P. Norrell (D-Ark.).

A proposal is under consideration which would transfer the hospital from control of the Army to Arkansas or to the State Vocational Rehabilitation Service, center with assistance from the Health Education and Welfare Department.

Iowa was named after a Sioux Indian tribe whose name meant "one who puts to sleep."

Columnist Learns a Lot in His Mail

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail.

The more you like your fellow man the easier it is for you to hold your job. The biggest single reason for dismissals in the business world is this: "He couldn't get along with other people."

If you're looking for the perfect weekend guest for your country place, don't overlook Secretary of State John Foster Dulles. He tells friends that washing dishes on vacation is his idea of "sheer recreation."

Speaking of vacations, someone overheard this remark: "The major trouble with this world is that the average woman wants a little more out of life than the average man can afford."

We brag about our cleanliness, but it is estimated there are still 8½ million U.S. homes without private bath or shower.

Remember when every city man dreamed of retiring to the country and making an independent living off five acres? It's more of a nightmare today. The cost of farm land has risen 50 per cent since 1950 and in some areas it has tripled in the last 18 years.

While in Hollywood, says Lisa Kirk, she overheard a 10-year-old boy tell his girl friend: "I really want you to be my first wife!"

News note: "Woman faint and die and live longer for 112." But putting up with it sure kills off us men.

No wonder a baby grows at its highest rate during the first year of life. Here's what it eats on the average: 765 cans of baby food, 337 cans of evaporated milk, 22 pounds of sugar and syrups, 30 cans of juices—plus all the crackers it doesn't throw on the floor.

Can you name the biggest college town in America? It's New York which now has 238,000 college students.

It was Edmund Burke who observed: "All that is necessary for the forces of evil to win in the world is for enough good men to do nothing."

Disc Jockeys Still Awake in 2nd Day

NEW YORK (AP) — Three disc jockeys — one here and two in Florida — still were wide awake today in the second day of their sleepless marathons.

Peter Tripp 32, of WMGM New York, who began his bout against the sundown at 11:14 a.m. Tuesday conceded he felt fatigue between 4 a.m. and 7 a.m. but he didn't doze off.

Tripp hopes to stay awake 200 hours — or 8½ days.

Hoping to outlast him are Red Evans of WTAL, Tallahassee, and Dave Hunter of WZLQ, Jacksonville.

Evans passed the 24-hour mark at 9 a.m. and professed to be feeling chipper. He is spending his nights locked inside a 5 and 10 cent store window.

Hunter, who also started at 9 a.m. Tuesday, is painting water colors.

Hunter claims to have set a world record of 187 sleepless hours in a previous test.

The average U.S. city uses 162 gallons of water per day for each person living there.
